Parent company of Balances Visionair and Groupe NJCO across Canada

Since 1989, Jaly International has been meeting the needs of petroleum product transporters and service stations by offering innovative, high-quality products that facilitate the maintenance of petroleum equipment.

Our perseverance in wanting to develop new products has led the company to build a reputation for excellence in the service of companies in the oil sector. In 2020, a new team took over the reins of the company, which became Groupe NJCO.

Our mission is to be a leader in the network, constantly innovating according to the needs of the industry.

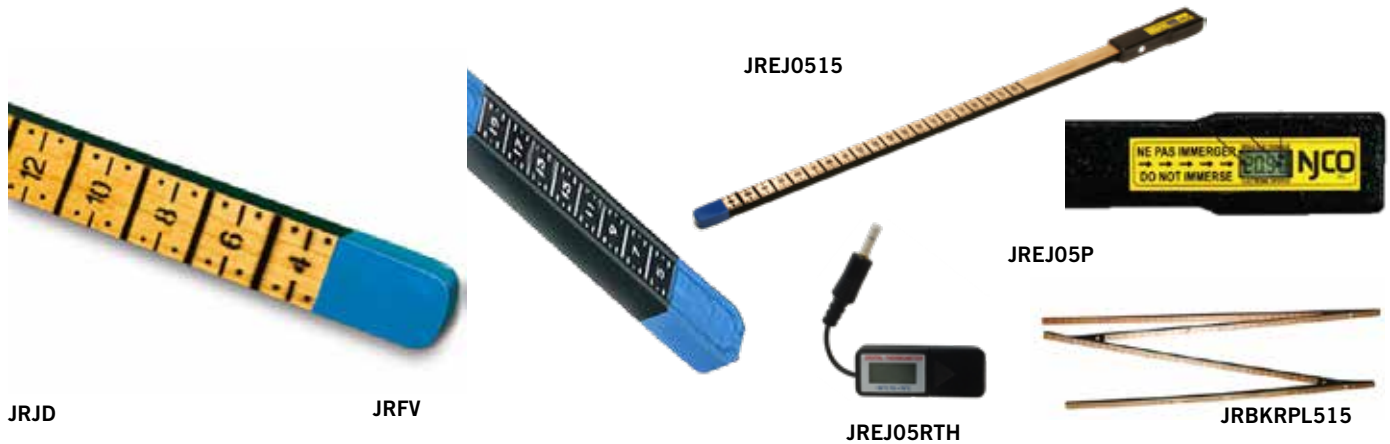

Les Balances Visionair, manufactures and distributes on-board scales for heavy trucks throughout Quebec and Canada. Founded in 2000, our company has had great success with transport and heavy truck companies. Our products adapt to market demand and meet high quality requirements.

Our Team

We are proud to introduce you to the members of our team. Dedicated, conscientious, honest, innovative, and organized are the qualities that represent Groupe NJCO. Listening to the needs of our customers, the speed of service, the quality of our products, after-sales service and standardization are at the heart of our priorities.

We set ourselves apart by ensuring that all our customers are satisfied with their experience with us. Every day, we go beyond your expectations with our professionalism, experience and knowledge, as well as our commitment.

Protected and reinforced at one end by a polyurethane tip, NJCO wooden measuring rulers are resistant to shocks and the corrosive action of gasoline, ethanol, methanol, kerosene and diesel.

DRAIN COVER

Prevents contaminants from entering the drain.
Resists oils and chemicals.

DRAIN COVER

Code	Description	Unit
JSDC40	Drain cover neoprene rubber LG.: 40" H.: 40"	Unit

Emergency wall kits for oil spills.

An essential tool for reacting quickly and efficiently to unexpected oil leaks.

- Robust and resistant bag, exclusive to NJCO.
- Resistant to mold, rot, oil and cold to -60 °C.

JATJK9

EMERGENCY KIT INCLUDES:

- 1 PVC bag resistant to oil and the most aggressive chemicals.
- 1 laminated instruction sheet
- 1 pair of safety goggles
- 1 pair of disposable nitrile gloves
- 1 neoprene drain cover (40 x 40 inches)
- 3 absorbent socks (3 x 48 inches)
- 15 absorbent pads (16 x 18 inches)
- 2 disposable bags
- 2 fasteners (7.5 inches)

JATJK9F

FORESTRY KIT INCLUDES:

- 1 PVC bag resistant to oil and the most aggressive chemicals.
- 1 laminated instruction sheet
- 1 pair of safety goggles
- 1 pair of disposable nitrile gloves
- 1 pair of heavy-duty nitrile gloves
- 6 absorbent socks (3 x 48 inches)
- 30 absorbent pads (16 x 18 inches)
- 2 extra strong bags (35 x 50 inches)
- 2 fasteners (7.5 inches)
- 1 epoxy tube (4 oz)

JATJC7K

THE SPILL KIT YELLOW PAIL INCLUDES :

- 1 laminated instruction sheet
- 1 pair of safety goggles
- 1 pair of disposable nitrile gloves
- 1 neoprene drain cover (40 x 40 inches)
- 3 absorbent socks (3 x 48 inches)
- 15 absorbent pads (16 x 18 inches)
- 2 disposable bags
- 2 fasteners (7.5 inches)

JATJS1276K

THE MOBILE SPILL KIT INCLUDES:

- 50 absorbent pads (16" x 18")
- 5 absorbent socks (3" x 48")
- 3 absorbent socks (3" x 120")
- 1 neoprene drain cover (36" x 36")
- 1 pair of disposable nitrile gloves
- 2 microporous suit, XL
- 1 pair of safety goggles
- 3 disposable bags (26" x 36)

JDTOP310K

11 LBS SQUARE BASE

- 15.25" x 17.25" square shape for excellent stability
- 100% recycled & revulcanized rubber for maximum durability

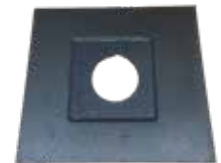

PROTECTIVE MAT

- Neoprene fabric 40" x 40" - 1/16" thick
- Delimits and defines the area to be protected (ex: filling box)
- Prevents ingress of water, dirt, contaminants.
- Easy handling.
- Specifically adjusted to the diameter of the JDTOP310 cone delineator
- Completely covers the base of the JDTOP310
- Provides additional weight

Wood Gauge (JRJD)

- Hard wooden ruler, resistant and safe
- The premium NJCO ruler is protected and reinforced at one end by a molded, permanent polyurethane end cap that resists impact and the corrosive action of gasoline.
- The durability of the JRJD is four times that of the competition.
- Safe because nothing in the NJCO rule can cause static electricity.

Fiberglass Gauge (JRFV)

The NJCO Fiberglass Ruler is a premium quality, high performance gauge.

- JRFV is lightweight, corrosion resistant, non-conductive, magnetic field neutral and UV stabilized.
- The JRFV is fitted at one end with the NJCO HP fitting.
- A support is added to one end of the JRFV to facilitate handling.
- By its durability and longevity, the JRFV NJCO is the essential technical support for the precise management of your daily inventories.

Electronic Gauge (JREJ)

Two operations in one:

- Taking the temperature of the gasoline contained in your tanks.
- The reading of the gasoline level by graduation (traditional way).
- The JREJ display instantly shows you the degree of temperature of your stocks with precision.
- The JREJ's ergonomic case is robust, sealed and shock resistant.
- The electronic components of the JREJ are isolated and meet industry standards.
- The JREJ is easy to handle and its reliability makes it a very popular tool for your employee.

Storage Tube (JTRJA)

The storage tube is an indispensable tool for preserving the NJCO gauge

- ALUMINUM tube (0.65 6061-T-6)
- Meets industry and environmental standards.
- 15' length
- Ready for immediate installation
